Convince Me

Val Emmich

Please, please convince me
Please, please, please convince me
Tell me so it makes sense to me
How much better is I wanna be
And please, please, please convince me
Please, please, please convince me
Tell me so I understand
Talk to me and hold my hand
And please, please, please convince me
Please, please, please convince me
Tell me everything's gonna be alright
Even if it takes our lives, please
Please, please convince me
Please, please, please convince me
I've been troubled and I've been blue
Tell me something good, tell me something new

Please, please, please convince me
Please, please, please convince me
Tell me what it's all about
Tell me things will work out
And please, please, please convince me
Please, please, please convince me
The whole wide world is falling apart
The whole wide world bought our broken heart
So please, please convince me
Please, please, please convince me
Please, please, please convince me
Please, please, please convince me
Convince me, baby, convince me, baby
Convince me, baby, convince me, baby
Please convince me, baby, convince me, baby
Convince me, baby, convince me, baby
