

Wretched Songs

Grandaddy

My heart it sits inside me
It don't know we said goodbye
You see it's having trouble feeling good
The way it did, the way it should
I know it knows that something's wrong
It hears me play these awful songs
Its having trouble feeling good
The way it did, the way it should
My heart it sits inside me
It don't realizes we said goodbye
It's having trouble feeling good
The way it did the way it should
I know it knows that something's wrong
It hears me play these wretched songs
Its having trouble feeling good
The way it did, the way it should
