Listen to Your Heart

Saga

We don't move
We don't make a sound
We stand alone
In the middle of a crowd
And when you look at me
I can't look away
We find ourselves
Lost in yesterday
If you listen to your heart
You'll know what you want to do
Just look into my eyes
Don't you know I'll always care for you
When we dance
Time stands still
This romance
Is something we can't kill
No one knows
Just how we feel
We'll never be alone
While we're living inside this dream
If you listen to your heart
You'll know what you want to do
Just look into my eyes
You know I'll care for you
Listen to your heart
You know that you want me too
No matter where you go
I'll be there for you
