Helpless

Simian

Someone was looking at me
When I was looking at you
Well, ain't it always that way?
Please, tell me, how can I choose?It's gotta be you or me
Or me and you
And they're in middle
Tell me, what to do, ooh, oohOn every move that I make
There lies a golden mistake
Behind your make-believe eyes
There lies a million sighsIt's gotta be you or me
Or me and you
And they're in middle
Tell me, what to do, ooh, oohI can only save myself
But when I think of you I'm helpless, so helplessI'll tell myself that it's true
But oh, well, what can I do?
'Cause when I'm laying at night
I see her eyes come aliveIt's gotta be you or me
Or me and you
And they're in middle
Tell me, what to do, ooh, oohBut, baby, it'll be okay
I am here, I am here to stay
Just kill my troublesome mind
And clear my cloudy eyeIt's gotta be you or me
Or me and you
And they're in the middle
Tell me, what to do, ooh, oohI can only save myself
But when I think of you I'm helpless, so helpless
I can only save myself
But when I think of you I'm helpless, so helpless
I'm helpless, so helpless, I'm helpless, so helpless
