

# Black Smoke (Live at Rockpalast)

## Blues Pills

Gallons of water was flowing  
And people were floating up to the air  
Death came up with his black robe on  
And took all the sinners to hell  
Is there nothing left to see?  
Have we ever been?  
Is this a dream  
Or a haunting in my sleep?  
Sixteen demons  
Haunt me in my sleep  
Never leave me  
A moment of peace  
Sixteen reasons  
I never know who I am  
I just keep wondering  
And drifting alone  
In this life, I'm dying  
All of the forests were burning  
And black smoke was rising up through the air  
God came down with his white beard long  
And damned all the sinners who dared  
Is there nothing left to see?  
Have we ever been?  
Is this a dream  
Or a haunting in my sleep?  
A thousand thoughts  
Going through my mind  
Dreams I once had I left behind  
I've got an angel  
Knocking at my door  
Accept and let go  
I wave goodbye to my soul
