Couldn't Care More

Fine Young Cannibals

Another Day...
Another crime...
Somebody died
long before their timeI couldn't care more
I couldn't care less
If it's not happening next door
You couldn't care more
Always a war being fought
many die before they ought
when this happens abroad
don't give it a second thoughtI couldn't care more
I couldn't care less
If it's not happening next door
You couldn't care more
It gets so tiring
Survival of the fittest
I'm all right
minding my own business
trouble everywhere
and it's not that I don't care
it happens all the time
and it's never going to change your lifeI couldn't care more
I couldn't care less
If it's not happening next door
You couldn't care more
