

Relating to a Psychopath

[Macy Gray](#)

Advisory - the following lyrics contain explicit language:

Hot like hot wings with hot chocolate in Hell, aha
Cold like in my isolation cell in the winter
While kissing Mr. Freeze Take the weather man and blow him away, hey, hey
Love is a desert and I need it to rain
You are so good at keeping me company You are relating to a psychopath
Your role model is in therapy
You must be real far gone
You're relating to a psychopath Noah's elephants are leaving the ark in eights
During the upside of my manic depressive state
Crickets sing in 3 part harmony I try to walk away, I choke and I stumble
I'm flying back so listen close when I mumble
That you are so good at keeping me company, yeah You are relating to a psychopath
Your role model is in therapy
You must be real far gone
You're relating to a psychopath It never adds up when you do your math
You're relating to a psychopath
Yes I'm real far gone
You're relating to a psychopath Medication is slow and it's when it kicks in
That my mind chooses to go my feel better begins
Just when I get attached, it ends, it's insane
I'd better remain a psycho, 1, 2, 3, 4 Cartoon figures dance in my head
I said
Love is butter won't you be my bread?
You are so good at keeping me company, yeah Oh, you are relating to a psychopath
Your role model is in therapy
You must be real far gone
You're relating to a psychopath, yeah It never adds up when you do your math
You're relating to a psychopath
Yes, I'm real far gone
You're relating to a psychopath
Oh, a, a psychopath I am demented
My mind is bendin'

My brain is twisted
Baby, keep me company It never adds up when you do your math
You're relating to a psychopath
Yes, I'm real far gone
You're relating to a psychopath You must be a psycho too
Love is butter won't you be my bread?
That's what I said, Psychotic, Psychosis
My manic depressive state is great
On the upside, it's the love side Love is a desert and I need you to rain, rain, rain
Rain, rain, rain, rain, rain, rain, rain
Rain, rain, rain, rain, rain, rain, rain
Love is butter won't you be my bread?
Did you hear what I said?
