Nothing Helps

One Ok Rock

No nothing helps
We won't stop right now
We did it on our own
Nobody else
It's because of you I'm standing here with youGimme some more
Gimme some moreOh Yeah OK I've got bad days
so caught up in my mind and I'm
Not really sure who I am
and nothing seems to go my way at allThen I hit the stage and remember
why I'm here
I'll be the voice
to those who don't have one
and never forget
the road backNo nothing helps
We won't stop right now
We did it on our own
Nobody else
It's because of you we finally came this far
And on and on another song
to write the wrongs that I
Tell me who else?
It thanks to all of you
that I could find my own wayAny longer and I'll know
each and every day every show
gotta give my best with innocence
It could be all taken away in a minuteThere are things I always remember forever
Oh no
How can I walk this rocky road?
and never regret
I'll never knowI just have to goNo nothing helps
We won't stop right now
We did it on our own
Nobody else
It's because of you we finally came this far
And on and on another song
to write the wrongs that I
Tell me who else?
It thanks to all of you
that I could find my own way in this mazeI'm by myself

stuck inside my throat
The words they won't come out
Oh what the hell
Why don't I just leave, give up and let it
all go awayBut then I see your face and remember
why I'm hereNo nothing helps
We won't stop right now
We did it on our own
Nobody else
It's because of you we finally came this far
Tell me who else?
It thanks to all of you
that I could find my way
Somebody else
Will someday come and then take my place
And so the story goesAll what I can do for you
All what you will want me to
All what you can see me through
Will someday come
The story goes
