City Lights

A*M*E

INTRO:
City lights are bright and know we won't stop
Till the morning's light
And we know the place where we can go
With all the lights like Tokyo
Oh, oh, oh, oh, oh, oh, oh, oh, oh,
Oh, oh, oh, oh, oh, oh, oh, oh, oh,V1:
I'm about to get it off and get my party on
Keep it moving, keep it going, keep it coming strong
Leave your worries at the door, baby get loose
Busta move and show us all the things that you can doPRE:
We're grooving, we're moving, our minds we are losing
24/7 so know we ain't snoozing
Tonight is the night do it right get it tight
Cause I know you won't fight, the city lightsCHORUS:
City lights are bright and know we won't stop
Till the morning's light
And we know the place where we can go
With all the lights like Tokyo
City nights are right, dancing to the beat we're feeling nice
Play me a tune, something I like, just letting loose, just living life X 2V2:
I'm about to break it down and my groove on
Keep it moving till it gets to the crack of dawn
Get up, get down like a domino
Please don't stop until the dj says it's time to goPRE + CHORUSBARTOVEN RAP:
Tonight I was gonna hold off,
But you know what? I just might go clubbing in Shoreditch...
Everywhere's so full of colour, it's gorgeous
No queuing up, say nothing, it's sorted
I know the bouncer, quick go through
When we've got P, there is no queue
If it gets dead then it's on to the next, on to the next club with the whole crew
So I buy the bottle, you pour the shots
And after the club it's the corner shop
And after that God knows, call me on
But I reckon that I'm just unorthodoxCHORUSOUTRO:
City nights are right, dancing to the beat we're feeling nice
Play me a tune, something I like, just letting loose, just living life
