New Friend Request

Evergreen Terrace

Don't fade me out againYou'll never make it on your own
(You'll never make it on your own)
You'll never make it on your own
Don't fade me out again
I'll still be on
You'll never make it on your own
(You'll never make it on your own)
You'll never make it on your ownYou always take without giving
Always one step ahead
A sorted life that you're leading
Inside you know you're already deadBleed us dry
One more time
Now you're gone
Don't fade me out again
I'll still be on
You'll never make it on your own
(You'll never make it on your own)
You'll never make it on your ownYou always take without giving
Always one step ahead
You always take without giving
Always one step ahead
Bleed us dry
one more time
Bleed us dry
one more time
Now you're gone
Don't fade me out again
I'll still be on.
You'll never make it on your own
(You'll never make it on your own)
You'll never make it on your ownNow you're gone
Now you're gone
Bleed us dry
one more time
Now you're gone
Don't fade me out again
I'll still be onYou'll never make it on your own
(You'll never make it on your own)
You'll never make it on your own

Bleed us dry (You'll never make it on your own, you'll never make it on your own)
One more time (You'll never make it on your own)Now you're gone
