

# Man On The Moon

Phillip Phillips

Oh oh yeah, oh oh oh yeah, oh oh oh yeah  
I watched the world from the side of the moon  
Looking at the stars, looking back to you  
Just to see if you were still alive  
Looking at the sun with the fire in your eyes  
It's hard to know where I stand  
When the man on the moon couldn't tell me where to land  
But I, I wanted to fly in the sea with no gravity to pull me down  
Hold on it won't take long  
You can find yourself if you decide to finally start  
Don't run to me when you fall  
Cause the steps getting bigger so go ahead and walk them off  
And you know how I feel  
So don't let your life start to slowly waste away  
Huh ohh  
No no  
So tell me this one thing  
Now listen to me close

You steal from me but you call it your own  
You liar you thief go make your stand on your own two feet  
So oh now oh now listen what your friends say  
Go now go now, go and do it that way  
I'm the one you want to believe  
But in your heart you can't see  
Hold on it won't take long  
You can find yourself if you decide to finally start  
Don't run to me when you fall  
Cause the steps getting bigger so go ahead and walk them off  
And you know how I feel  
So don't let your life start to slowly waste away  
Oh let it fall, let it fall  
Hold on it won't take long  
You can find yourself if you decide to finally start  
Don't run to me when you fall  
Cause the steps getting bigger so go ahead and walk them off  
And you know how I feel  
So don't let your life start to slowly waste away
