Lips Like Morphine

Kill Hannah

I want a girl with lips like morphine
Knock me out every time they touch me
I wanna feel a kiss just crush me
And break me downKnock me out, knock me out
Knock me out, knock me out
'Cause I've waited for all my life
To be here with you tonightI want a girl with lips like morphine
Blow a kiss that leaves me gasping
And I wanna feel that lightning strike me
And burn me downKnock me out, knock me out
Knock me out, knock me out
'Cause I've waited for all my life
To be here with you tonight
Just put me on my back, knock me out againI want a girl with lips like morphine
Knock me out every time they touch me
I want a girl with lips like morphine
To knock me outSee I've waited for all my life
To be here with you tonight
Just put me on my back
Knock me out again
