Quotes

dredg

There's a way, a way to get out of here
To escape these storms and find some shelter
To rid of your darkness, to rid of your boredomThere's somewhere, somewhere that you can go
It's obvious, well, it's apparent
It's right in front of you, so reach out and take itAnd just let go, our sobriety we'll abandon
Discriminate, we fade slow, fade slow
These drugs will expand us
United we will grow, let go, let goThere's a way, a way to squash all of your fears
When everyone around you seems to be a stranger
You feel their eyes upon you
You're hearing their thoughts
As they walk away the voice grows louderIllusions illuminate
Why let illusions dictate your next move?
You're bound by deception and a misled directionSo just let go, our sobriety we'll abandon
Discriminate, we fade slow, fade slow
These drugs will expand us
United we will grow, let go, let goThere's a way, a way out of here
There's a way, a way out of hereSo just let go, our sobriety we'll abandon
Discriminate, we fade slow, fade slow
These drugs will expand us
United we will grow, let go, let go
