

Awhileaway

Yo La Tengo

How do you turn from fear?
How do you make dark thoughts disappear?
A moment ago feels right?
Maybe I can hide from the night, maybe
I'll just turn on the light So it's you, and me,
hard times pass peaceful
is that true? We'll see,
maybe once or twice in Awhileaway My heart skips every time,
your sleepy grin, you're still closed eyes,
I don't need anymore,
I'm sure I've said all that before
please don't laugh when I see you some more With you, and me,
we don't even have to agree Is that true?
We'll see,
maybe once or twice in Awhileaway Things get better sometimes
but whether or not it takes forever,
it's inside, if we're together Please don't laugh when I see you some more,
with you and me,
hard times pass peacefully is that true?
We'll see, maybe ill believe what you say or..
Maybe I can quiet my brain,
maybe once or twice in Awhileaway.
