

Get What You Need

Jet

Call you on the telephone (she's not there)
You're always leavin' me alone (she don't care)
I do with messin' around (she's not there)
If you got a lady friend I'll shake her down
So come on
Yeah! Come on
Come on.

You're gonna get what you need
(Gonna get what you need)
You're gonna get what you need
(Gonna get what you need)
Come on and get what you need
(Gonna get what you need)
I wanna get what you need
(I wanna get what you need)
Now I'm in a rockin' band (she's not there)
No one else to hold my hand
Word starts gettin' around (she's not there)
If you got a lady friend I'll take her to town

Yeah! So come on
Yeah! Come on
Come on.

You're gonna get what you need
(Gonna get what you need)
You're gonna get what you need
(Gonna get what you need)
Come on and get what you need
(Gonna get what you need)
I want to get what you need
(Gonna get what you need)
Yeah!

You're gonna get what you need
(Gonna get what you need)
You're gonna get what you need
(Gonna get what you need)
You're gonna get what you need
(Gonna get what you need)
You're gonna get what you need

(Gonna get what you need)
