

Life of the Party

KIDZ BOP Kids

I'm not nervous
I'm not scared
I feel the energy in the air
And I am ready
I feel so cool
And I bet you feel it too Well my heart skips skips a beat
And I don't care much to see
I take my chance i'm breaking it down
And going all out
Right na na now And I'll be the life of the party
I'll take that one first step and the rest is history
Turn up the beat and get started
I'm gonna move my feet like the day was made for me
Oh eh eh eh eh oh eh eh eh eh oh oh oh
I'll be the life of the party
I'll take that one first step yeah Its so electric
And its so bright
Well I see it in your eyes
You are amazing
And so am I
(Why why) Why not touch the sky? Well my heart skips skips a beat
And I don't care much to see
I take my chance i'm breaking it down
And going all out
Right na na now And I'll be the life of the party
I'll take that one first step and the rest is history
Turn up the beat and get started
I'm gonna move my feet like the day was made for me
Oh eh eh eh eh oh eh eh eh eh oh oh oh
I'll be the life of the party
I'll take that one first step yeah That's why just like your
We can run the show
I know you did the way that it sounds
So break it all down
Right na na now I'll be the life of the party
I'll take that one first step
And the rest is history And I'll be the life of the party
I'll take that one first step and the rest is history
Turn up the beat and get started

I'm gonna move my feet like the day was made for me
Oh eehh eh oh eehh eh oh eehh eh oh oh oh
I'll be the life of the party
I'll take that one first step yeah
