

Moments

Westlife

If I die tonight, I'd go with no regrets
If it's in your arms I know that I was blessed
And if your eyes are the last thing that I see
Then I know the beauty Heaven holds for me But if I make it through, if I live to see the day
If I'm with you, I'll know just what to say
The truth be told, girl you take my breath away
Every minute, every hour, every day 'Cause every moment we share together
Is even better than the moment before
If everyday was as good as today was
Then I can't wait 'til tomorrow comes A moment in time is all that's given you and me
A moment in time and it's something you should seize
So I won't make the mistake of letting go
Everyday you're here I'm gonna let you know That every moment we share together
Is even better than the moment before
If everyday was as good as today was
Then I can't wait 'til tomorrow comes Each morning that I get up
I love you more than ever
So girl I'll never go away
Never stray So every moment we share together
Is even better than the moment before
If everyday was as good as today was
Then I can't wait 'til tomorrow comes Every moment we share together
Is even better than the moment before
If everyday was as good as today was
I can't wait 'til tomorrow comes I love, love, love the moments
Moments we share together
I love, love, love the moments
I pray they'd last forever I love, love, love the moments
Moments we share together
I love, love, love the moments
I pray they'd last forever
