

# White Dress

## Willie Breeding

So do you remember?  
With your white dress on  
It was the end of December  
Count the days till dawn  
I never knew  
That I could love someone  
The way that I love you  
I never knew  
That I could love someone  
The way that I love you  
I never knew  
That I could love someone  
The way that I love you  
I never knew  
I never knew  
She's coming on Friday  
And then the close spark  
Cause its just minutes & highways  
Till the one I love  
The one I love  
Till oh...  
I never knew  
That I could love someone  
The way that I love you  
I never knew  
That I could love someone  
  
The way that I love you  
I never knew  
That I could love someone  
The way that I love you  
I never knew  
I never knew  
I never knew  
That I could love someone  
The way that I love you  
I never knew  
That I could love someone  
The way that I love you

I never knew  
That I could love someone  
The way that I love you  
I never knew  
I never knew, no  
I never knew, no  
I never knew  
That I could love  
That I could love  
That I could love someone  
That you could love  
That you could love someone like me  
Oh, that I could love  
That I could love  
That I could love someone like  
That you could love someone like me
