

# Psychic Love Damage

## Black Moth Super Rainbow

I've wasted all my daylight  
Always dreamin in your eyes  
I figured out what matters  
Psychically feeling us go by Your voice does this thing  
And your smile could wreck me  
The thought that we'll both be gone someday  
Tears me to pieces I've wasted all my daylight  
Always dreamin in your eyes  
I figured out what matters  
Psychically feeling us go by Your voice does this thing  
And your smile could wreck me  
The thought that we'll both be gone someday  
Tears me to pieces Your voice does this thing  
And your smile could wreck me  
The thought that we'll both be gone someday  
Tears me to pieces
