

Ripe

Givers

Ripe
You like your man ripe
I like mine still growin
Call and we will say
We want it all our way, no way
Theres so much left to learn, up above, taking turns
Such a mess to impress lets dig in
Stop thinking, stop thinking, stop thinking, stop thinking, stop thinking
Stuck again, stuck again, stuck again, stuck again, love again
You like your man ripe
I like mine still growin growin growin
Well call and we wont say
We want it all our way, no way
