

Sky Is Falling

Bertie Blackman

When you come round
I fall out with myself
 Its not my fault
That I cant stop and I am
 Riddled with doubt
And the streets drip with sin
 Drip all around
So I can begin againI do propose
But not in a way you would like
 Ive suffered enough
As the dark burns my skin
 Upon the ground
 All cradled in glass
 Broken but tough
I jump in a hole deep withinStep it off, step it off
 Cause I am coming in
 Shake it off, shake it off
Cause Im stuck in a whirlwind
 Take it low, take it low
 And wonder how it is
 Oh wooh, oh wooh
Cause the sky is fallingUpon the sun
 Its cracking and all dust
 The earth is gone
 Already dripping with blood
 And Im at one
 With the fact that its ruined
 In rubble
And I dont wanna live aloneStep it off, step it off
 Cause I am coming in
 Shake it off, shake it off
Cause Im stuck in a whirlwind
 Take it low, take it low
 And wonder how it is
 Oh wooh, oh wooh
Cause the sky is fallingStep it off, step it off
 Cause I am coming in
 Shake it off, shake it off
Cause Im stuck in a whirlwind

Take it low, take it low
And wonder how it is
Oh wooh, oh wooh
Cause the sky is falling
