## **Hey Wait**

## **Sanctus Real**

So confined to the fear that you hold on to
Time unwinds and nothing seems
Promised youHey wait, I want to take you for a ride
Hey wait, I want to catch you
While there's timeWho'll pick you up when there's no one
(I'll)

Around?

Who'll hold you up when your heart

(I'll)

Hits the ground?So defined by a love that has fallen through
But hope is kind
When you hope in something
You know is trueYou're tired and you can't take

Another time around You know it's hope I'm holding So, I hope I've found you in this
