

Casserole of Life

Guttermouth

Im Gonna bake today
Try a new recipe
Throw out a new apron
Move over bacon here comes something meatier
The versatile diversity of casserole is similar to living life
The ingredients are things that you can't live without
Life can only be
What you put into it
My life is my casserole
And I want to fill it with fun, fun, fun, fun
The versatile diversity of casserole is similar to living life
The ingredients are things that you can't live without
Everybody's recipe is different upon what you put in
these are the things that make my life taste good
Donut, bacon, hot-dog on a stick
Machine guns, gambling, hooker turning tricks
Fireworks hunting, tons and tons of drugs
Taxidermy
Sometimes you can get burned
But that's how you learn
to change your recipe
And step on up to the donut gem of life yea!
The versatile diversity of casserole is similar to living life
The ingredients are things that you can't live without
Everybody's recipe is different upon what you put in
these are the things that make my life taste good
Hot tubs, cross bows, setting forest fires
Styrofoam, TV, Slashing all your tires
liquor, Ding dong, pawning mommy's ring
Unemployment
The versatile diversity of casserole is similar to living life
The ingredients are things that you can't live without
Everybody's recipe is different upon what you put in
these are the things that make my life taste good
