

Bad Seeds

Brother Cane

Find another crow to swallow, Hey hey hey
Cross another bridge of sorrow, I don't mind
On the edge and you're frustated, Hey hey hey
In the days of my contagious and smothering
life breaths through my hands, and love breaths through my hands,
time beats through my hands, bad seeds in my hands,
I want to let them go
donning you some wild flower, Hey hey hey
What to do with eighteen hours? I don't know
Everyone could take for granted, Hey hey hey
Deliver me to understanding, One in this
life breaths through my hands, and love breaths through my hands,
time beats through my hands, bad seeds in my hands
I want to let them go
weather, face getting colder
crawling , space pushing lower
broken hands clenching harder, Hey hey hey
Sympathy it never started, I don't care
through the middle holding steady, Hey hey hey
all around us snakes are shedding, so am I
life breaths through my hands, and love breaths through my hands,
time beats through my hands, bad seeds in my hands,
bad seeds in my hands,
bad seeds in my hands,
bad seeds in my hands,
bad seeds bad seeds
I want to let them go
