1968

The Last Internationale

You wait for fallen angels
We need no miracles
We seize on every moment
Come baby ride this movementDo you think they really love you
As they kill and rise above you
Will they dont really love us
They can never really looooveThe more i love
the more i feel i can make it revolution
the more i make revolutoion
the more i feel i can make it looooooveWe're not revolutionaries
Sit around and talkin pennies
We speak in a different fashion
our language is direct actionFor everyone who to stop us
we multipy three or four
noone or one could stop us
cut down on he killing floorThe more i love
the more i feel i can make it revolution
the more i make revolutoion
the more i feel i can make it looooooveDo you think they really love you
As they kill and rise above you
Do you think they really love us
As they kill and rise above usWill they dont really love us
Will they can really love us
Will they wont really love us
They can never really looooveThe more i love
the more i feel i can make it revolution
the more i make revolutoion
the more i feel i can make it looooove
the more i make revolutoion
the more i feel i can make it looooove
hey hey hoooa heyhey hoo
