Pretty Stars

John Newsome

Unlock my hesitation
Take me on the ride of my life
Ignore my complication
Show me all the pretty stars at night

Me against the world
Picture me with war flag unfurled
Just the wind and the monsters in my head
I shoot my words, they come back clean
I shoot my words, they come back clean
An unexpected dream

Unlock my hesitation
Take me on the ride of my life
Ignore my complication
Show me all your pretty stars at night

Me against the waves
The familiar is lost in all you say
I become a child and walk to you
You offer words that make me clean
You offer words that make me clean

Unlock my hesitation
Take me on the ride of my life
Ignore my complication
Show me all the pretty stars
I lose my hesitation
Whisper all your love songs deep in me
Ignore my complication
Reach down from the sky and set me free
Set me free
Oh set me free
Set me free
