

# Pretty Stars

## John Newsome

Unlock my hesitation  
Take me on the ride of my life  
Ignore my complication  
Show me all the pretty stars at night

Me against the world  
Picture me with war flag unfurled  
Just the wind and the monsters in my head  
I shoot my words, they come back clean  
I shoot my words, they come back clean  
An unexpected dream

Unlock my hesitation  
Take me on the ride of my life  
Ignore my complication  
Show me all your pretty stars at night

Me against the waves  
The familiar is lost in all you say  
I become a child and walk to you  
You offer words that make me clean  
You offer words that make me clean

Unlock my hesitation  
Take me on the ride of my life  
Ignore my complication  
Show me all the pretty stars  
I lose my hesitation  
Whisper all your love songs deep in me  
Ignore my complication  
Reach down from the sky and set me free  
Set me free  
Oh set me free  
Set me free
