

Ghetto Girl (Blood & Fire Sound System Mix)

Simply Red

Stay at home now
That little girl was born on the ghetto side of town
She knows every trick in the book and she certainly gets around
She's been with many men since she was only ten
She never stay at home she 's always on the town Your mamma is wondering where you are
What do you see at night when you're under the stars Stay at home
Sister stay at home
Don't let your mamma down
Don't be a run around Stay at home
Sister stay at home
Don't let your mother down
Don't be a run around
Stay at home now That little girl was born on the ghetto side of town
She knows every trick in the book and she certainly gets around
She's been with many men since she was only ten
She never stay at home she's always on the town Your mamma is wondering where you are
What do you see at night when you're under the stars
Baby keep on running and you won't get far
You like to travel with all those movie stars
You like a hangin' in the big long shiny cars Sister stay at home
Don't let your mamma down no no no no
