

Blazing Saddles (Latinhouse remix)

Yello

The summertime has gone
You'll never ever be alone You are my sun
All the strangers in time
Please call me later tonight
Cause I'm waiting for love
The summertime has gone
You'll never ever be alone You are my sun
In the darkness of time
The night is so long
You'll never ever be alone The summertime has gone
You'll never ever be alone When you are crying
And the moon starts to shine
Please take my hand
Into the ocean of love
The summertime has gone
You'll never ever be alone When you are smiling
And the moon starts to shine
Cause tonight is so long
You'll never ever be alone The summer night has gone
You'll never ever be alone You are my sun
All the strangers in time
Please call me later tonight
Cause I'm waiting for love
The summertime has gone
You'll never ever be alone You are my sun
In the darkness of night
The night is so long
You'll never ever be alone
