

# Wasted Love

**Benzel & Stevie Neale**

So you say there's nothing wrong  
Then tell me why I don't believe you  
Maybe you sound just to sincere  
Maybe I just saw right trough you  
Cause who's the girl  
Walking there by your side  
The way she smiles I just know  
I wasted love  
I wasted love  
I wasted all my emotions on you  
I wasted love  
So here the walls come tumbling down  
A heart's breaking into a thousand pieces  
I might be damaged but I'll be Ok  
Everything happens for a reason  
Who's the girl

Walking there by your side  
The way she smiles I just know  
I wasted love  
I wasted love  
I wasted all my emotions on you  
I wasted love  
Everything happens for a reason  
Who's the girl  
Walking there by your side  
The way she smiles I just know  
(I can tell by the way you smile, yeah)  
I wasted love  
I wasted love  
I wasted all my emotions on you  
I wasted love
