

Too Much to Bare

No Warning

I can't fucking take it
It's burning me through
With each passing day
It just gets worse I can't fucking stand it
Gotta break away
Nothing in common
Except this simple hate No end in sight
I want you'll to get out
Pretending to care
It's making me sick I can't fucking stand it
Gotta break away
Nothing in common
Except this simple hate How much do you think I know?
I know enough
Enough to know
I want to get out Is this too much for you to do?
Make me lose my faith in you
Now I fucking know
I want to get out
