Too Much to Bare

[No Warning](#)

I can't fucking take it
It's burning me through
With each passing day
It just gets worseI can't fucking stand it
Gotta break away
Nothing in common
Except this simple hateNo end in sight
I want you'll to get out
Pretending to care
It's making me sickI can't fucking stand it
Gotta break away
Nothing in common
Except this simple hateHow much do you think I know?
I know enough
Enough to know
I want to get outIs this too much for you to do?
Make me lose my faith in you
Now I fucking know
I want to get out
