

# Restraining Order Blues

[Michelle Malone](#)

You vowed you'd love me til the end of time  
Then you ran off with an old friend of mine  
For once she kept her mouth shut about something  
She let you check the oil and try her transmission  
I don't care what happens to me  
I don't care what happens to you Restraining Order Blues  
Restraining Order Blues Drove by your house a hundred times a day  
Rehearsing all the things that I was gonna say  
Did your friends know that you were running around?  
Did you do her in my bed when I was out of town?  
I poured Dixie crystals into your car gas tank  
While I was at it, I painted it pink  
Pawned my wedding ring for a .44 Aimed at your house, shot it full of holes Restraining Order Blues  
Restraining Order Blues The police came and put me in the back seat,  
Well, they cuffed my hands and read my rights to me  
I went peacefully, I felt vindicated  
Passive aggression is over rated  
I don't care what happens to me  
I don't care what happens to you Restraining Order Blues  
Restraining Order Blues
