Someone Anyone

Anberlin

Thought we were past this
Thought we moved on
But I guess I was wrong
Do we not learn from mistakes?
Do we not have what it takes?
Are you the cure or disease?
Do you still take as you please
Are you the cure? Or are you the disease?
Someone, someone tell me what we?re fighting for
Anyone, anyone, anyone can start a war
No one can walk away, no one can walk away truly alive
Someone, someone, someone tell me why we need this?
Anyone, anyone, anyone can start a war
No one can walk away, no one can walk away truly alive
Forward we find, yesterday?s gone
And I hope that I?m wrong
If we don?t learn from their past
We?ll repeat their history oh at last
Are you with us or without?
Scene is set but fading out

Are with us, well are you with us?
Someone, someone tell me what we?re fighting for
Anyone, anyone, anyone can start a war
No one can walk away, no one can walk away truly alive
Someone, someone, someone tell me why we need it?
Anyone, anyone, anyone can start a war
No one can walk away, no one can walk away truly alive
Are you the cure or disease?
Do you still take as you please
Are you the cure? Or are you the disease?
Someone, someone tell me what we?re fighting for
Anyone, anyone, anyone can start a war
No one can walk away, no one can walk away truly alive, truly alive
Someone, someone tell me what we?re fighting for
Anyone, anyone, anyone can start a war
No one can walk away, no one can walk away truly alive
Someone, someone, someone tell me why we need it?
I don?t see a reason, tell me why we need a reason
