This Is Not the End

Liz Longley

This is the hardest part
After we've come so far
Which turn to take
How do we make it through
Looks like were holding on
To something already gone
You gotta believe
You gotta believe itI won't let this go
You know i'll keep you close
It might feel like its over
But this is not the endCould be the start of something
Call it a new beginning
Don't be afraid
Thats just the way it goes
And I've got you here with me
Thats where you'll always be
Wherever i am
Wherever i amI won't let this go
You know i'll keep you close
It might feel like its over
But this is not the endThis is not the endI'll never say goodbye
Those words just don't feel rightI won't let this go
You know i'll keep you close
It might feel like its over
But this is not the ned
I can't say good bye
Those words don't feel right
It might feel like its over
But this is not the end
This is not the end
This is not the end
