

# Cutie

## Showaddywaddy

Passing by, I first saw you standing all alone out in the rain  
You're little body dampened by the weather  
Looking like a picture all the same  
I thought I'd kinda like to get to know ya  
Like the chance to take you for a drive  
We can move on down the center highway  
Run outta gas out in the countryside  
Me oh me oh my, girl I like your style - cutie cutie  
Me oh me oh my, yeah you make me smile - cutie cutie  
In a little while I'll take you  
In a jam you help me right on through  
Got to find a better registration  
JU104 was not your style  
Came across a Jag it was a write-off  
Cutie it made me smile  
Me oh me oh my, girl I like your style - cutie cutie  
Me oh me oh my, yeah you make me smile - cutie cutie  
Me oh me oh my, girl I like your style - cutie cutie  
Me oh me oh my, yeah you make me smile - cutie cutie
