

Won't Let Up

Papa Roach

If you feel that your world is coming down around you
Or you feel that this world is looking down upon you?
The only way is up, but if you change, you gotta wanna
And if you don't, then you'll definitely be a gonna
And It's okay if you break down and break through
I'll be here if you need me to remind you
You're not the first and you're not the last
It only gets worst if you're living in the past
Open your eyes and you will see
'Cause I still believe,
Sometimes you gotta lose everything
To find out that you've always been running blind
Gotta keep your head up when the world won't let up
Sometimes you gotta leave everything
To find out what you'd don't wanna leave behind
You gotta keep your head up
When the world won't let up
So when you feel like everybody's out to get you
L-O-V-E and something will protect you
And when the dust settles and you have your breakthroughs
M-U-R-D-E-R all the pain
It will set you free, everybody like me
Just reach for the skies when you'll rise and you'll see
You're not the first and you're not the last
It only gets worst if you're living in the past
Open your eyes and you will see
'Cause I still believe sometimes you gotta lose everything

To find out that you've always been running blind
You gotta keep your head up
When the world won't let up
Sometimes you gotta leave everything
To find out what you'd don't wanna leave behind
You gotta keep your head up
When the world won't let up
Hey hey even though it hurts like hell we have to bleed
Hey hey even when we fight for air we keep on breathing
Hey hey even if you lost yourself you still have me
Hey hey even if you hate yourself but have no reason

I still believe in..

I still believe in..

I still believe in..

I still believe in..

Sometimes you gotta lose everything

To find out that you've always been running blind

You gotta keep your head up

When the world won't let up

Sometimes you gotta leave everything

To find out what you don't leave behind

You gotta keep your head up

When the world won't let up

You gotta keep your head up

'Cause the world won't let up

Keep your head up

You gotta your head up

Because the world won't let up
