Lonely Streak

Mark Collie

I've got this lonely streak running through my veins
And it's wrapped around my heart like a ball and chain
Well i've got my dreams i'm gonna find some day
If this lonely streak ever goes awayI keep waitin' for my luck to change trying to outrun the rain
But no matter what road i take the destination is still the same
Each time i turn to someone new my mind turns back to you
And i wonder how long i'll be this blue
I've got this lonely streak.
[guitar]
I keep waitin' for my luck to change...
I've got this lonely streak.
