

# Lonely Streak

[Mark Collie](#)

I've got this lonely streak running through my veins  
And it's wrapped around my heart like a ball and chain  
Well i've got my dreams i'm gonna find some day  
If this lonely streak ever goes away I keep waitin' for my luck to change trying to outrun the rain  
But no matter what road i take the destination is still the same  
Each time i turn to someone new my mind turns back to you  
And i wonder how long i'll be this blue  
I've got this lonely streak.  
[ guitar ]  
I keep waitin' for my luck to change...  
I've got this lonely streak.
