

# Cool Kids

## Kix

Hey what'cha gonna do on Friday night?  
Where ya gonna go? We gotta find some action  
Baby, I'll meet ya at the Paradise, start a little chain reaction  
Hey anybody got a cigarette, thanks, anybody here got a dime  
I heard that Frankie's got a blue Corvette, she said to call her any time  
Anybody got a situation, is there any place to go?  
We want cool kids out on the corner  
Cool kids, out on a limb  
Cool kids looking for someone, looking for something  
Looking for somebody, tonight  
K-k-kids are all right  
We go cruising down the avenue  
Lean out the window at the stop light  
Just trying to shake up to the Main Street blues  
Tryin' to break out into the hot night  
Anybody got a invitation, is there any place to go?  
We want cool kids out on the corner  
Cool kids, out on a limb  
Cool kids looking for someone, looking for something  
Looking for somebody, tonight  
K-k-kids are all right  
Anybody got an invitation is there any place to go  
We want cool kids, so cool  
We want cool kids  
We want cool kids  
C-c-cool kids, out on the corner, cool kids, out tonight  
Cool kids, looking for trouble, cool kids  
C-c-cool kids, out on the corner, cool kids, out tonight  
Cool kids, looking for trouble, cool kids  
C-c-cool kids, cool kids, cool kids, oh  
Cool kids, I wanna be cool, I wanna be cool  
Cool kids, kids are all right  
Cool kids, out on the corner, cool kids
