Wale

Come and talk to me, I'm serious, yeah
Come and talk to me, I'm curious, yeah
Money I can bring but I'm serious, yeah
Shawty, I can bring you somethin' different, look
Good dick and advice, I'm 'bout it
Good dick and advice, I got you
If you need it in your life, I got that
I might put it in your life, you won't go back, go back
Come and talk to me, I'm serious, yeah
Come and talk to me, I'm curious, yeah
Money I can bring but I'm serious, yeah
Shawty, I can bring you somethin' different, look
Good dick and advice, I'm 'bout it
Good dick and advice, I got you
If you need it in your life, I got that
I might put it in your life, you won't go back, go back
What would you do if I told you I need to know was the sweetest nuance
What if a brother was ill enough to kill your fears and lovin' in the convos he bring you was as deep as his
condolences from a loved one, I wonder
What if I told you, I just wanna hold you until I know you, when I'd rather know you before we go do what
grown ups do, closed room, post honeymoon
Would you run away or run up to?
If I gave you the right of way, would you give it up right away like that last scribble with that number two?
Shoot, let's have a sip from my affection and expand one on you on this new found friendships as we share and
reciprocate with
Only difference with my particular curriculum is I'm here to lecture and listen, shawty, get it together
So you can take this as takin' me, takin' my charm, or take me by the hand or by the arm, now hold me tighter
than a hope
Oh, this potential bond can be if you honestly ponderin', callin' on me
See right now, the only thing between us is makin' universe smile, what you want me to call you 10 hours after
you give me them 10 numbers to dial
If it's any cancellation, I feel some type of havin' some type of honour in havin' a conversion with a number 10
right now
I see you later and see if you like it
See you later, see if you love it
See you later, you can see some effort
I see you later, so, so much, you wanna see me forever
That's all the advice I got
Good dick and advice, I'm 'bout it

Good dick and advice, I got you
If you need it in your life, I got that
I might put it in your life, you won't go back, go back
Come and talk to me, I'm serious, yeah
Come and talk to me, I'm curious, yeah
Money I can bring but I'm serious, yeah
Shawty, I can bring you somethin' different, look
Let's see somethin', good dick and advice, I got that
Good dick and advice, I'm 'bout it
