Musical Ride

Hanson

Come
on this musical ride
with me
It might just change the life you think you're gonna lead
If I'm right you might just stop and see
I'll take your breath away
Show you more than you have known
And everyday
I'll give you all this, nothing, and more
Why are you waiting?
What is left to know?
There is no reason we should be standing still
Pick the destination and I'll pick the road
I'll take your breath away
Show you more than you have known
And everyday
I'll give you all this, nothing, and more
I'll give you all this, nothing, and more
ooo yeah
Don't make your mind up just yet
There's still so much for you to see
And every time you waste a moment,
You waste make believe

I see it taking you home
You must let go before it starts
This confrontation you keep feeling is your heart
It's simple
But somehow
Letting go's the hardest part
Come
on this musical ride
with me
It might just change the life you think you're gonna lead
If I'm right you might just stop and see
It might just change your life
It might just blow your mind
Don't make your mind up just yet
There's still so much for you to see

And every time you waste a moment,
You waste make believe
I see it taking you home
You must let go before it starts
This confrontation you keep feeling is your heart
It's simple
But somehow
Letting go's the hardest part
