

You Bring Me Joy

Mary J Blige

I don't know what I would do, do without you
In my life, boy
I don't know if I could live, live without you
You bring me joy You know if the time is right I don't wanna fuss 'n fight
I just wanna let you know I'm feelin' good tonight
I want you to take my hand and promise you'll be cool
Because I know you like the way that I move Oh boy, you bring me joy
Some try to plague me but they can't fade me
Oh boy, you've go it goin' on, and you make me happy
So very happy I don't know what I would do, do without you
In my life, boy
I don't know if I could live, live without you
You bring me joy You know when I think of you I'm thinkin' of myself
I just wanna be with you, my friend, and no one else
It's not hard to say what I feel
Because you know that my love is for real Oh boy, I'll be your toy
Come on and play with me, and never leave me
Oh boy, you've got it goin' on, and you satisfy me
You satisfy me So much joy in my world
Be my man and I'll be your girl I don't know what I would do, do without you
In my life, boy
I don't know if I could live, live without you
You bring me joy Wait just a minute, something else is on my mind
I don't wanna have to tell you this but one more time
You're the only man I want and I ain't never gonna front
On you baby, so relax your mind and realize I don't know what I would do, do without you
In my life, boy
I don't know if I could live, live without you
You bring me joy I don't know what I would do, do without you
In my life, boy
I don't know if I could live, live without you
You bring me joy
