Love Games

Pretty Maids

Now wait a minute, baby
Don't leave me, don't go
We'll work it out like we've done beforeAnother lonely night
Without you by my side
Can't take it, can't take it no moreA romantic chase
Two hearts out of phase
When love strikes, I'm out of controlFrustrating my mind
You know love is blind
Reflecting what's deep in my soulThe passion that rules
A feeling so strong
I just can't turn away from youI may be a fool
But this can't go wrong
I was made for youLove games
Two people together
Love games
Playing to winLove games
We're dealing forever in sin
Forever in sinCaught up in the game
And there's no one to blame
Inside this casino of loveJust messing around
With the face of a clown
Playing until I've had enoughYou're rolling the dice
I'm stripped by your eyes
I can't stand the way you're teasingAs sly as a snake
You got all that it takes
You'll make a heart stop beatingLove games
Two people together
Love games
Playing to winLove games
We're dealing forever in sin
Forever in sinSince the first time you touched me
Just one time too much
Brought me down on my kneesSince the first time we kissed
I was more than possessed
I was eager to pleaseLove games
Two people together
Love games
Playing to winLove games
We're dealing forever in sin

Forever in sin
