## GOJIRA

Serpent of light, movement of the soul  
Crawling stately along the spine  
Mighty phoenix from the ashes arises  
Firebird cycle, life, regenerate the cellLife burns fierce, reduced to ashes  
Resurrection from the flame, ageless process  
Quest for absolution, out of bounds introspect  
Self-consuming womb, ever present, meet no endIt seems like I always knew this  
Since I'm a child I can feel it  
My inner light everlasting  
Revolving within a circleExtended wings I'm flying  
Over the valleys and planes  
The curve of space I'm leaving  
Death is just an illusionOroborus symbol of eternal life  
Dig a tunnel for light through ignorant walls  
I'm counting the days but I'm dying  
Grow up with impatience, I'm falling downOn the peaks of radiant mountains  
This truth is growing before me  
My attention fixed on the silence  
Rediscover life while I'm breathingDesigning the shape of material  
Frozen icon distant reminder  
Mankind has forgotten the gateways  
By the mouth of the serpent regenerate
