

# You Gave Your Love to Me Softly

Weezer

You gave your love to me softly  
I heard your heart  
Beating true  
Still your Bijon lingers on and on and on  
You gave your love to me softly  
When I'm feeling blue and lonely  
All I have to do is think of you  
We had just one night  
But it lingers on and on and on  
You gave your love to me softly  
La la la you sang to me  
Baby don't you cry  
Put your arms around me child  
And lay with me tonight  
You gave your love to me softly La la la  
La la la  
La la la la la la la
