

Sun

Donovan

Sun, the earth is turning
it's turning round
and love is the access
but they chop the tree down
all the proud trees are standing
as green as the sky
as green as the greenstone
that makes seabirds fly
ovens area baking
and the rivers run dry
as dry as the ocean
on wings of a fly
go if you're able
and come if you can
life's very unstable
it's built upon sand
marianne set the table
an old friend I see
marianne fetch the papers
there's two for tea
