No Free Rides

River City High

Waiting for you
To see what I see
Youe on your knees
You look down on everybody
How your view
Can you see me too
Do I look the same
Now that you are through(chorus)
There ain no free rides
You got no alibi
You gotta work for it this time
I can hold you up
It just gonna slow me up
There gotta be a better lifeYoue like a broken clock
Always the wrong time
You got a broken heart
It looks a lot like mine
How your life
And how your view
Does a smile get you
By like it used to
(chorus)
And she said, Il make it
It my world after all
(Chorus)
