

The Mood Is Right

Wayne Wonder

One, two, three
Wayne Wonder, baby
Slow, slow, sing slow, left side
Esco, for the ladies
Baby, slow, slow
Hmm, hmm
The mood is right
(So right, so right)
So let's get it on tonight
I'm gonna take my time
(Take my time, girl)
So baby gimme what I like
(What I like)
Girl

Something about the way you move, captured me
I'm like a slave for your love, that you can't set free
Darling, every time you are around me
It feels so divine, you send chills up my spine
The mood is right
(So right, so right)
So let's get it on tonight
I'm gonna take my time
(Take my time, girl)
So baby gimme what I like
(What I like)
Girl

Baby, anytime that we're apart, always wanna feel
All of your tender touch, you know I want it so much
Baby, now that we are together, right here, right now
I wanna make up for lost times with you tonight
The mood is right
(So right, so right)
So let's get it on tonight
I'm gonna take my time
(Take my time, girl)
So baby, gimme what I like
(What I like)
Girl
So good, so right

(So good, so right)
So good, so good, so right
(So good, so good, so right)
So good, so right
(So good, so right)
So good, so right
(So right)
The mood is right
(So right, so right)
So let's get it on tonight
I'm gonna take my time
(Take my time, girl)
So baby, gimme what I like
(What I like)
Girl

Something about the way you move, captured me
I'm like a slave for your love, that you can't set free
Darling every time you are around me
It feels so divine, you send chills up my spine
The mood is right
(So right, so right)
So let's get it on tonight
(Baby)
I'm gonna take my time
(Take my time, girl)
So baby, gimme what I like
(What I like)
