Can You

Across the Viaduct

Can you see what you wanna be,
Can you see everything is free,
Can you see your diversity,
Can you see it's you and me,
Every night I'll own a dream with you,
And the feelings i can see in you,
Show me what i mean to you,
Show it all to me.
Can you see what you wanna be,
Can you see everything is free,
Can you see your diversity,
Can you see it's you and me,
Every night I'll own a dream with you,
And the feelings i can see in you,
Show me what i mean to you,
Show it all to me.
...(Are you ready)...
Can i make you smile again
I just want us to be friends.
Every day i think of you
Can i make this feeling true.

Every night before i sleep
The thought of you makes me complete.
Nothing better comes to mind than loving you all night.
Can you see what you wanna be,
Can you see everything is free,
Can you see your diversity,
Can you see it's you and me,
Every night I'll own a dream with you,
And the feelings i can see in you,
Show me what i mean to you,
Show it all to me.
Can you see what you wanna be,
Can you see everything is free,
Can you see your diversity,
Can you see it's you and me,
Every night I'll own a dream with you,
And the feelings i can see in you,

Show me what i mean to you,
Show it all to me.
(Are you ready)...
Can you see what you wanna be?
